

Service and Maintenance

When you are riding regularly, sooner or later your equipment will need some service or maintenance. To Wheels offers full tune-up and repair services for pro scooters and BMX bikes. We even offer bar cutting and slitting. You may drop off your equipment for assessment at which point one of our expert staff will provide a service quote, and estimate when your equipment will be available for pickup. **Prices are subject to vary depending on the condition of your equipment, but below are some general rates to get an idea of what your repair may cost:**
